QUESTION 1

Which of the following is NOT a characteristic of a good research question?

- A. It is clear and specific.
- B. It is broad and general.
- C. It is measurable and testable.
- D. It is interesting and relevant.

ANSWER: B

EXPLANATION: A good research question should be clear, specific, measurable, and testable. It should also be interesting and relevant. A broad and general question is not a good research question.
